Hours for Credo 124: 8:00 AM-6:00 PM Mon. - Sat.

credo... a statement of principles or beliefs.

Welcome to credo – a café-based idea that every cup of coffee served will be the highest possible standard of quality and taste.

We have tremendous respect for all who work to provide us with the world's finest coffees - the growers who work at origin, those who source the best of the best, those who import to ensure the beans arrive "in season," those who roast to bring out the inherent flavours of the bean and those, in our café, that prepare the coffee and enhance the customer experience.

We believe credo is much more than merely a place to run in for coffee: it is a place to connect, to relax, to discuss, and to feel at home. It is a place where you will be served a coffee that represents everything the producers had in mind when they harvested and evaluated the results of their labour.

At credo, our principle, our commitment, our belief, is to maintain the quality of the coffee that began at seed, and to extract that quality into every cup we offer.

Check out Canada's only Neon Sign Museum

The City of Edmonton Heritage Planning has collected neon signs from old or demolished buildings, and they are on display on the 4th Street Promenade. The museum started with 8 signs representing early styles and iconic signage in Edmonton's history, with the goal of collecting 30. Each sign has an accompanying plaque telling the story of the neon sign.

In the 20th century, neon was an industry standard for sign makers. Nowadays, the fuel and artisans are rare and expensive, making neon signs a dying industry. The Neon Sign Museum serves as a place to display and appreciate the businesses of the past.
